

WHAT'S THE POWER OF AI?

VIDEO TRANSCRIPT

What if it could put an end to all the mouse-clicks, and keystrokes

And make room for people to create?

What if it could close the pay gap between genders, by turning bias into equality?

What if it could help the blind achieve more by using sound to give them sight?

What if it could help cruise ships become more clairvoyant and carmakers be more collaborative?

What if a single collaboration between humans, birds and AI could lead to conservation

What's the power of AI?

It's infinite

But it has no perspective of its own,

No point of view, no purpose,

Until people put it in motion

Turning imagination
Into reality
